

Using mouse models: an update on current regulations

Description	The half-day course will provide useful information to all those involved in animal experimentation with mice. Leading experts from the field will give insights into the latest regulations for mouse experiments, the management of pain and pathogens, and the 3Rs principle. Beside talks there will be time for discussions and networking with the participants and the speakers
Eligibility	The course is open to PhD students, Postdocs and technicians.
Date	14. June 2019 , 08:45 – 14:00, including break and lunch
Credits	This course does not provide ECTS.
Facilitators	Roch-Philippe Charles (Host), University of Bern, Institute of Biochemistry and Molecular Medicine, <i>and guest</i> : <ul style="list-style-type: none"> • Jacques Voland, Office for Agriculture and Nature, Veterinary Services, Bern • Alessandra Bergadano, Head of central Animal Facility, Dept. of Biomedical Research, Univ. of Bern • Carlotta Detotto, Central Animal Facility, Dept. of Biomedical Research, Univ. of Bern • Armand Mensen, Swiss 3R Competence Centre, Univ. of Bern
Location	University of Bern, Institute of Biochemistry and Molecular Medicine (IBMM), Lecture Room Ground Floor Gertrud-Woker Strasse 5, 3012 Bern.
Registration	Please send an email to valentina.rossetti@transcure.unibe.ch Deadline: 1st June 2019
No. of places	30 participants. If overbooked, priority will be given to scientists from NCCR TransCure groups.
